Get More Qualified B2B Sales Leads & Appointments
Launch Leads began in a living room in 2009 because of a need in the market place to enable established or emerging businesses to grow faster, increase efficiency within their sales and marketing efforts to add sales revenue and profitability. Launch now offers services such as: B2B Prospecting, Appointment Setting, Client Profiling, Lead List Generation and Clean Up, Immediate Response to Web Leads, Event Registration and Follow Up, and finally our Sales Assistant program that allows a closer or team to have a dedicated “executive assistant” that is trained in the specifics of the B2B sales process and helps drive prospects from the top of the funnel to a closed sale.

We are located in beautiful Salt Lake City, Utah, uniquely positioned to utilize top talent from some of the countries best universities. We are also next door to our partners and advisory panel, ensuring our continued success and growth, regardless of the economic climate. We are focused on increasing our clients’ revenue and have built a company full of talent and proprietary technology to do just that.

What We Do

INCREASING SALES & GROWING REVENUE SINCE 2009

Launch aligns its sales process with yours. We begin our B2B lead generation with a targeted lead list of your potential prospects. Our people dial the leads aided by fabulous technology with one goal in mind — to have a peer-to-peer conversation with decision makers who meet your criteria. We are based in the United States, we are All-American and in-house — our people, systems and processes.

When we connect with decision makers who meet your criteria, we schedule a telephone appointment for you. We coordinate their calendar with yours, we call to remind them and we e-mail them the day of the appointment so they show up as agreed. If they miss their appointment with you for whatever reason, we reschedule at no additional cost to you.

Whether we are following up on a webinar or trade show for you or immediately responding to your inbound leads from your website or online marketing campaigns, we know that we must perform or you won’t stick around with us.

Our success is completely aligned with yours.

SEO.com is one of the nation’s top digital marketing firms. After experiencing incredible organic growth, they sought to develop their outbound marketing campaign to increase their revenue. They previously generated all their leads through inbound web marketing. As a result, SEO.com’s sales professionals spent much of their time working with unqualified or falsely submitted leads and leads that were concurrently soliciting bids from multiple search engine optimization firms.
